

To whom it may concern,

This letter is to recommend Austin Foster for a role with your company. Austin and I worked together during her employment at Craft Brew Alliance where Austin served as Marketing Assistant and was an incredible asset to me personally and professionally.

Austin worked with me on several projects ranging anywhere from administrative tasks to outright ownership of media campaigns. She consistently surprised me with her ability to take limited direction and run with it to produce excellent results.

What's more, she did so with enthusiasm and problem solving skills. Her strong work ethic gave me confidence that she could take over projects I had limited bandwidth to direct and she was always eager to help. Austin's ambition, enthusiasm and energy are contagious and I'm confident she would be a fantastic addition to your team.

Please feel free to contact me should you like to discuss Austin's qualifications and experience further.

Best of luck with your search,

Karmen Olson
